

This Week

The median list price in LOUISVILLE, CO this week is \$445,000.

Demand measured by the Market Action Index is increasing and days-on-market is trending downward. Even as more properties come available, these are positive trends for the market.

Supply and Demand

- Home sales have been exceeding new inventory for several weeks. However because of excess inventory, prices have not yet stopped falling. Should the sales trend continue, expect prices to level off soon and potentially to resume their climb from there. Watch prices as the market transitions from a Buyer's market to a Seller's market.

Market Action Index

The Market Action Index answers the question "How's the Market?" By measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
